Shared intimacy

Designed by Terri Pecora in collaboration with the Vitra Design Team, Plural offers the feeling of a vintage living room, inspired by the iconic mid 20th century look. Light and airy furniture is creatively embedded into the bathroom environment, introducing a welcoming domestic space where users can share time with others.

This re-definition of the modern bathroom also presents new solutions for designed plumbing components. All interrelated items have a wide selection of size options, harmonious forms and colour varieties in a sophisticated combination of solid wood and ceramic.

Plural's refined design language creates an atmosphere of sensual luxury. With an aesthetic mix and match of forms, finishes and colours, it brings objects and people together in a delightfully harmonious bathroom environment.

Plural

Terri Pecora

The bathroom as a social hub

All the elements of Plural interrelate in a way that encourages mixing and grouping together in a modern and fresh bathroom concept.

Plural

Terri Pecora

Mixing colours

Plural introduces a subtle palette of colours and materials into the bathroom space to break away from conventional imagery.

Plural

Floating elements

Plural washbasins float off the wall and can be positioned in unprecedented locations, even in the middle of the room.

Changing rituals

Plural offers a contemporary interpretation of communal bathing spaces and rituals, inspiring new experiences in shared intimacy.

Elegant furniture

Plural presents attractive, light looking, yet solidly strong furniture with black graphic legs, with the wood countertop creating an exquisite centerpiece to any bathroom. It may be hard to resist the warmth, texture and authenticity of solid wood, but the collection also offers a compelling set of ceramic countertops in an innovative array of colours.

Plural

Sharing mirrors

Plural's wall-hanging mirror rotates and moves in all directions, also presenting the option to mount vertically or horizontally.

Terri Pecora

Leading innovation

Innovative and technologically advanced three syphon solutions conceal the untidy look of pipes and allow the mounting of washbasins in any part of the room. One allows the ceramic basins to be placed at various angles as an alternative to conventional positioning by the wall, encouraging users to face each other and engage with their surroundings. Another has been designed specifically to enable washbasins to be mounted in an open bathroom space while retaining a clean and minimalistic look. The third allows for the fitting of monoblock basins at free angles in the room instead of the more common 90° angle to the wall.

Plural

Seamless design

Plural offers single WC pans with a unique design. Their in-wall tank and mounting hardware are completely concealed for a clean, seamless look and blend beautifully with any bathroom decor. To strengthen the seamless harmony, the seat cover's hinge colour can be matched with your faucets colours.

Plural's new generation urinals, with their compact and unique form, add a subtle style to bathrooms. Offered in standard and mono block versions, these urinals also present perfect options for public sanitary environments.
